In an Emergency [1]

Emergency 911 [2]

An emergency is any situation that requires immediate assistance from the police, fire department or ambulance. Examples include:

- A fire
- A crime, especially if in progress
- A car crash, especially if someone is injured
- A medical emergency, such as someone who is unconscious, gasping for air or not breathing, experiencing an allergic reaction, having chest pain, having uncontrollable bleeding, or any other symptoms that require immediate medical attention.

Important: If you’re not sure whether the situation is a true emergency, officials recommend calling 911 and letting the call-taker determine whether you need emergency help.
